1214 motorists in 14 cities tested a "mystery" gasoline. 95% of them proved that it gave better performance than the gasoline they had been using. This "mystery gas" was Blue Sunoco.

LETTER FROM E. W. SAYBOLT & CO. A recognised authority on Petroleum This is to certify that we have supervised the filling of the drums of quadine for these tests, and sealed them with temper-

Furthermore, our laboratory analyses have proved that this gasoline was regular Blue Sunoco Motor Fuel in every respect, except for the blue coloring, which was omitted to avoid identification by motorists taking part in the tests. Coloring, however, does not affect the performance of the gasoline in any way.

LETTER FROM ROSS FEDERAL RESEARCH CORPORATION A nationally known organization

We witnessed the sealing of gasoline drums at the refinery and shipped these drums to
Ross Federal men in fourteen cities. Our representatives broke the seals, and gave ten gallons of Blue Sunoco, minus its identifying blue color, to approximately one hundred motorists in each of these cities, first pumping out the gas in their these same motorists and obtained their unbiased answers. We tabulated the reports, and certify to the correctness of the figures in this advertisement.

of claims!-is what Blue Sunoco brings you in the most complete, the most daring test ever devised for any gasoline!

# HOW THIS TEST WAS MADE

We employed the services of the Ross Federal Research Corp .- an entirely independent, fact-finding organization. Unknown even to our own employees, this organization sent its men out into the highways and byways of fourteen cities-large and small-from Massachusetts to Virginia and westward.

WE LEFT THE BLUE OUT OF BLUE SUNOCO

This was to prevent identification. Otherwise, this gasoline was regular Blue Sunoco and the certificate to the left, made by an independent testing laboratory, proves it.

WHO TOOK PART IN THIS TEST?

More than twelve hundred motorists people like yourself; workmen and clerks, housewives and doctors, business executives and others, were asked to try this "mystery"

gasoline. They came from all walks of life, in all makes of cars. The gasoline was drained

Truth in gasoline advertising! . : . Fast, instead from their tanks and replaced with ten gallons of this "mystery" gasoline. Then they went out to test it. Later, they were asked for their honest, candid opinions. Here are the figures. The statements of those motorists who were already using Blue Sunoco have been omitted from the compilation.

BLUE SUNOCO WINS AGAINST 54 OTHER LEADING BRANDS OF GASOLINE

In this remarkable test, Blue Sunoco was compared with 54 other makes of gasoline - extra-priced, regular-priced, cut-priced. The 1214 motorists who took part in the test didn't know which gasoline they were testing-don't know even yet, until they

read this report. 95% OF THESE MOTORISTS PROVED THE SUPERIORITY OF BLUE SUNOCO IN ALL-AROUND PERFORM-ANCE. THIS, BEYOND QUESTION, RANKS IT AS AMERICA'S OUTSTAND-ING MOTOR FUEL AT ANY PRICE.
